High quality uncoated smooth nonwoven for digital printing.

This material is PFAS free, formaldehyde free, and heavy metal free.

Surface Aspect:

- Ultra matte

Printing Process:

- Latex / UV

Printer Benefits:

- High dimensional stability
- Good opacity
- Excellent printability

End User Benefits:

- Pre-pasted
- PVC-free and ECO-friendly
- Luxurious, textile-like touch
- Pre-applied water activated adhesive, no glue needed
- Removable with only water

Certification

ASTM E84

Certified for
HP Latex Inks

The mark of
responsible forestry

(On Request)

Physical Properties

Grammage	150 g/m ²	4.42 oz/yd ²
Thickness	280 µm	11.0 mils
Dry Tensile Strength MD	4,930 N/m	12,750 g/inch
Dry Tensile Strength CD	3,320 N/m	8,600 g/inch
Elongation MD	8.0	%
Elongation CD	14.9	%
Ratio Wet/Dry	51.7	%
Brightness	85.5	%
Opacity	90.0	%
Wet Stability CD (Maxi)	0.25	%
Side to be printed	Top
